Company Background

Founded in 1983, AGMIN has almost 40 years of experience in the provision of trading services, procurement and technical assistance for projects and programmes administered by many of the world's most well-known international development organisations. The company operates exclusively in the field of International Cooperation in projects financed by grants and loans from bilateral and multilateral international development organisations including the United Nations (UN), the European Commission (EC), and the Italian Agency for Cooperation and Development (AICS) of the Italian Ministry of Foreign Affairs and International Cooperation (MAECI).

Agmin executives and staff are highly competent, multilingual industry veterans with demonstrable experience in the management of the complex technical, financial and logistical aspects of international development projects. The company has a global presence and draws on resources from the company headquarter in Verona (Italy). Further expertise is provided by a network of qualified international consultants, experts and strategic partnerships with local service providers in Africa, Asia, Central and Eastern Europe, and Central and South America, allowing the company to assign the most appropriate and practical expertise to project teams to ensure full compliance with donor and beneficiary requirements.

Areas of Expertise

- Agriculture & Rural Development
- Crisis Management & Post-Crisis Assistance
- Education & Social Development
- Electoral Observation & Democratization
- Energy & Environment
- Food Aid & Food Security
- Health & Medicine Supplies
- Humanitarian Aid & Human Rights
- Modular Prefabricated Buildings
- Public Finance

1. Trading

Agmin has almost 40 years of trading experience in nearly 90 countries worldwide. Continuous research and extensive commercial relationships enable the company to identify the most qualified and competitive suppliers for international and institutional clients.

- Prefabricated buildings fitted with appliances
- Fitted and furnished containers
- Medical equipment and consumables
- Personal Protective Equipment (PPE)
- Renewable energy and environmental equipment
- Waste Incinerators
- Submersible water pumps
- Drones
- Food, agricultural equipment and goods
- Water treatment and environmental technologies
- Information technology
- Educational and training materials
- Protection of cultural patrimony
- Scientific and laboratory equipment
- Vehicles

All necessary works related to the above projects, including installation, commissioning, training and after sale service, are provided by AGMIN.

Please see the “References” section for a list of clients and projects.

2. Procurement

Agmin has a lengthy track record as a procurement agent for international donors, managing all aspects of procurement in a cost-effective, timely and transparent manner.

- **Due Diligence:** Identification and evaluation of procurement needs and supply sources in terms of:
 - price, quality and quantity;
 - pre- and post-shipment inspection;
 - transportation and insurance;
 - local import procedures;
 - delivery, installation, testing and commissioning;
- **Specification:** Drafting of technical specifications in conjunction with local beneficiaries;
- **Tenders:** Drafting and publication of tender documentation;
- **Bid Evaluation:** Evaluation of bids on a technical and financial basis;
- **Contracts & Documentation:** Drafting of procurement contracts and related documentation;
- **Financial Management & Accounts:** Management of invoices and payments related to the procurement of supplies and support services; joint management and control of bank accounts established for the implementation of procurement programmes;
- **Logistics:** Monitoring of inspections, packing and delivery, installation, commissioning and training, and handover to the end user.

Please see the “References” section for a list of clients and projects.

3. Technical Assistance

Highly-skilled staff, decades of international experience and a global network of qualified experts enables Agmin to deliver high quality technical assistance to projects that is scalable, flexible and tailored to the different demands of each client:

- **Administrative & Logistical Support:** Complete logistical and administrative support services;
- **Information & Analysis:** Identification and appraisal of international donor-funded projects including feasibility studies, information-gathering missions, preparatory research and needs analysis;
- **Alliance-building:** Creation, participation in and management of international consortia;
- **Personnel:** Identification and contracting of local and international experts for use in project teams, often at short notice;
- **Project Implementation:** Development of flexible, innovative methodologies which reflect current policy and best practice, and offer sustainable solutions;
- **Monitoring & Project Management:** Implementation and active monitoring of projects in compliance with applicable norms and standards;
- **Quality Control:** Quality control and compliance with internal and donor reporting requirements.

Please see the “References” section for a list of clients and projects.
